

ECSEL Italy Day

3rd ECSEL Mirror Group Italy Day and Brokerage Event

Bologna • March 12th, 2019 • Aula Giorgio Prodi
Complesso di San Giovanni in Monte • Università di Bologna

The ECSEL Mirror Group Italy has been established in Italy at the end of 2015, with the purpose to support the Italian participation in the ECSEL Joint Undertaking, following the model of other European countries. It involves the Italian government through the Ministries of Research and University (MIUR) and of Economic Development (MISE), the Regions, the Large Enterprise, the SMEs, the ANIE Federation and AEIT-AMES.

The third edition of ECSEL Italy Day and Brokerage Event, on March 12th 2019, confirms its role as an open forum to promote the Italian participation to the calls of the ECSEL Joint Technology Initiative and other H2020 funding programs.

The National day of ECSEL Mirror Group Italy will give visibility on the status of ECSEL with special attention to the results of the 2018 calls, and the characteristics of the recently launched 2019 calls, with presentations by representatives of the ECSEL JU and of national and regional authorities. Results of previous Italian participation in ECSEL calls will be discussed, and participation experiences by single industrial partners presented.

In the morning, the proposals under preparation by other European partners and disclosed during recent brokerage events will be illustrated, and chances for Italian participation discussed. Representatives of the funding institutions and of AEIT-AMES association will be available for further clarifications to the parties, especially SMEs, that could be interested in participating to the calls.
